

Case Study

IOT

Real Values: E-Valuation: OrangeTee

Overview

Orange Tee is one of the largest Real Estate Agency in Singapore.

Requirements

Orange Tee required to build a custom solution to address the manual process done by Valuation Team. The complete valuation process had to be converted into automated system.

Solution

EvvoIoT provided for complete automation of the Valuation process. The solution has helped the client to move from Manual Process to 90% Automation.

Key Achievements

- Reduce the team size with the Automation and increase productivity for Orange Tee
- Automated the output of more than **80 Business Reports** which was aided day to day activities
- Storage of data on **Blockchain** enabled for **transparency, reconciliation & data validation**.

Technologies Used

- Database: **MySQL**
- Application Development: **Php**
- Frontend: **AngularJS**
- Backend: **Solidity Blockchain**
