

A Universal Digital Payment Interface For Innovative Merchant Solutions

One time integration with **EVVOPAY**, enable digital payment acceptance anywhere

What is **EVVOPAY**?

A fully integrated digital payment solution that simply works in any country where **EVVOPAY** is available.

A single constant payment interface that gives you easy access to all the payment processors with only a 1 time integration effort.

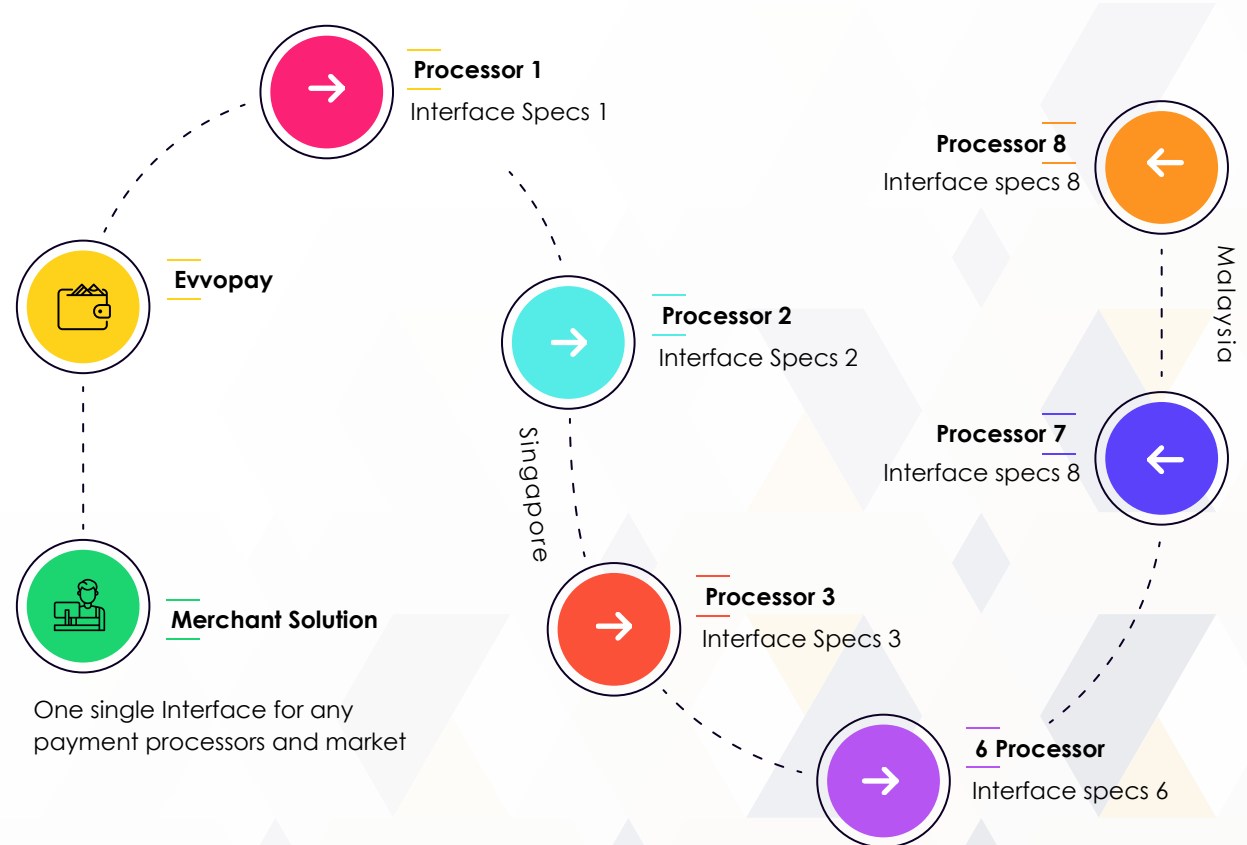

**You need access to payments
but its not your core business.**

EVVOPAY takes the payment integration off the critical path and allows you to focus on the customer experience.

EVVOPAY handles the complexity of integration with acquirers/processors.

Give your merchants more options

EVVOPAY allows your solution to be integrated with multiple acquirers/processors in any countries

Our Benefits

- 1** One-stop destination for all payment transactions
- 2** Integrate once & get access to localised payment options across SEA
- 3** Convenient, reliable and safe transactions
- 4** Easy to integrate & Superior checkout experience
- 5** We provide multiple processor options & give real time failovers for smoother transactions
